CREATE VALUE BEYOND TECHNOLOGY, SAAS - SOFTWARE AS A SERVICE

BRONX was initially founded in 2017. Kith Visal, founder and chief executive officer, holds a Master of Science in Electrical and Computer Engineering from Purdue University, U.S.A., and has more than 13 years of experience working across continents and various international projects. He started his career as Senior Software Engineer with Motorola Inc. in the United States in early 2008. After that, he was invited to be an international consultant for International Fund for Agricultural Development (IFAD) projects in Italy, Ghana, The Philippines, Cambodia, and Lao PDR. He also worked as chief technology officer for Cambodia-based ABI Technology. Mr Visal is committed to bringing better technology to Cambodian businesses-- propelling the Cambodian market into the new era.

We've been in business for 10 years, and one thing we've learned is that in order to expand, you need proper systems to build and maintain a strong customer base, and to efficiently manage your staff. There many management systems out there that do the job, but they are difficult to utilize and expensive to set up. That's why BRONX came up with a simplified, scalable solution to fit the needs of any business.

Are you now still using finger prints?
Time cards? Or a late-comer watchdog?

COME ON!

KlockNow is your one-off solution for making the office more simple for everyone – both employees and employers. With our complete cloud-based HR system (Software As A Service – SAAS), we believe HR should be simplified with an efficient platform.

Don't make your admin or HR scared of getting replaced by robot – we just reduce the tedious work of employee payroll management and give them more time to focus on intelligent leadership.

“Improving
your work
place with
KlockNow,
saving
time and
money.”

EASY WITH KLOCKNOW

Easy with KlockNow, we compare hours of work and productive results to plan better!

Easy with KlockNow, we measure performance and career steps to ensure satisfactory performance and maintain good internal communication!

Easy with KlockNow, we screen for efficiency and leave information so that employees can see their own review!

Easy with KlockNow, we consolidate employees working hours, lateness, leave, and KIP with just one click!

Easy with KlockNow, we make forms and evaluative interviews simple so that you can send out JD and JA right away!

Easy with KlockNow, we track your remote or on-the-job staff easily without invading their privacy!

Are your staff working overtime every day but never delivering results?

Stack of resignation letters?

Employees coming late and taking leave for illness?

Paying salaries too late?

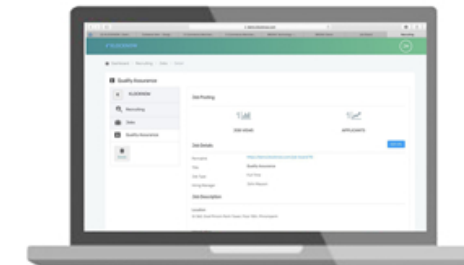

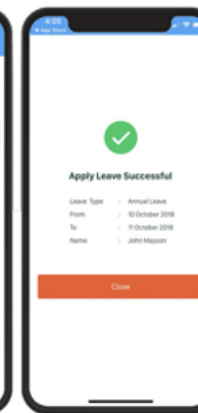

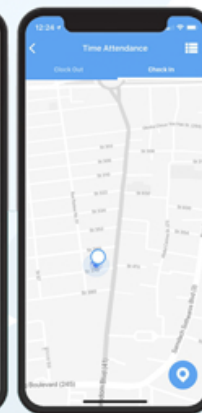

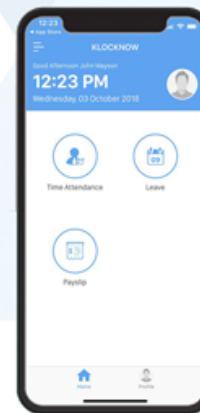

Hiring and firing so much you're burning your desk?

Difficult tracking your sale/delivery staff?
